Subject: Status on Report by Ex. 6 Personal Privacy (PP)

Good afternoon all, I checked at Haystack on the sighting of the vehicle and trailer. I didn't see any. I also stopped by Ex. 6 Personal Privacy (PP) home to see if they might have moved elsewhere. He said he was just reporting what he was told, but it seemed like whomever was there was working on repairing the fence. Also he says he was told that M&R trading out of Gamerco had leased the area for ranching. He wanted to know if that was correct. I told him we would check into it. He says that one of his relatives wants to put cattle in the fenced section next to his house, he told them that was not possible and that person told him he had a gun. I told him to let that happen and BNSF would take care of it themselves. I told him we did not want him or anyone to get hurt.

Ahéhee' (Thank you),
